

PLUG & PLAY VIDEO MAPPING SOLUTION

ONE SOLUTION, ZERO COMPROMISES !

Concept Map is the all-in-one solution for showcasing your buildings through video projection.

MAPMASTER Mapping control system by Concept Light

For controlling, supervising, and securing.

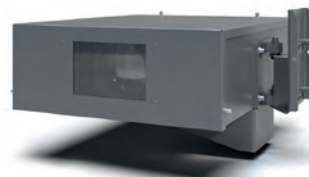

Mapmaster is an application that allows for the remote control and supervision of your devices from a PC, tablet, or even a smartphone.

CL-VPBOX

A casing designed to optimize the outdoor integration of video projectors.

Available in horizontal and vertical versions up to 24,000 lumens, it ensures optimal, lasting, and secure use of outdoor video projectors with total discretion.

TOURMEDIA

The urban furniture solution.

This system allows for the integration of video projectors into an urban space, either permanently or for temporary events. This module can also integrate a charging station, a fairground terminal (borne foraine), a hologram module, or a touch screen.
